Doorways

Doors connect the rooms on each level. Some lead to secret rooms, so try them all!

Mr. Peckles Space Lab

This is where Mr. Peckles rewards Alfred for his bravery.

On/Off Blocks

Alfred affects some things in the game by pecking these blocks.

Springs

Alfred can spring to high or hard to reach places. When Alfred jumps on a spring it bounces him into the air. Press **A** to make him bounce higher.

Ice

Alfred can either peck or dive bomb through ice. (Diving is faster!)

HELPFUL OBJECTS

Watering can

There is one on each of the worlds. Some are very well hidden, so look hard. Mr. Peckles awards an extra life for every can Alfred finds.

Can O Worms

Collect this to give Alfred a worm that spins around him, destroying monsters and breaking through ice blocks.

Egg cup

Gives one extra life.

Present

This makes Alfred invincible for a little while.

Clock

Gives 150 extra time units.

Bonus Game

Alfred gets 50 points for each present collected. If all the presents are collected then Mr. Peckles will award one extra life.

THE ENEMIES

Here are some of the enemies Alfred meets. Watch out! There are many more waiting to foil Alfred's mission.

Mino - The whale

An engine propelled monster found under water. If Alfred touches Mino, he meets a watery end!

Mag-Mine

Peck the On/Off block to activate and deactivate the Mag-Mine. When active, it is attracted to Alfred. Alfred should only touch the Mag-Mine in a dive bomb, which bounces him into the air. Alfred can use this to reach normally impossible places.

Byron Snail

He looks harmless enough, but Alfred better not touch him!

The Control Mine

The Control Mine is guided by the direction of the arrow on the Control Block. The mine is the only thing that can break through the Grim Blocker.

Grim Blocker

The Grim Blocker is normally found blocking Alfred's path.

Nintendo ENTERTAINMENT SYSTEM

The Control Block

Peck the Control Block, to change it into an arrow. Peck it again to move the arrow in a clockwise or counterclockwise direction (depends on the side where Alfred stands).

THE EVIL MEKA-CHICKENS

They designed and built all the obstacles to stop Alfred from rescuing Billy and his brothers. Alfred must defeat all the Meka-Chickens before he can make the rescue.

When Alfred meets a Meka-Chicken, he flies in his Meka-Buster Ship, which fires large bullets. To help fly the Meka-Buster use the Control Pad to aim and **B** to fire.

p.s. They only have one weak point. Find it and blast away.

MR. PECKLES HINTS & TIPS

Mr. Peckles Secret Room

On each level, if you look hard enough, you will find a door to a secret room. When in there, if you pick up the telephone, Mr. Peckles will give you a pot of jam.

Pot of Jam

This special jam pot lets Alfred fire bombs at monsters. Also use the bombs to find secret blocks, collect bonuses, shoot directional indicators, and activate On/Off blocks.

Moving Platforms

Some platforms follow paths around the map. These appear as dotted lines.
